Rob recognizes the importance of leaving a legacy. Rob has been heavily involved in Union Station for many years and is a member of the Union Station Legacy Society which means he has included a gift to Union Station in his estate plan. Rob notes that too many people procrastinate when it comes to making our estate plans. He believes that your planned gift can play a key role in benefiting generations to come and helping secure the work of Union Station today and for the future.

Marylou was a trail blazer. Dr. Marylou Ingram was a distinguished scholar, an exceptional teacher, and a caring mentor. She was also a longtime supporter of Union Station. Her career in medical research and teaching centered around experimental hematology, radiation biology, cellular immunology and cancer cell biology. When she passed at the age of 93, we received a generous gift from her estate. Our gratitude goes out to her for the wonderful legacy she left behind by making a planned gift to Union Station Homeless Services.

Gloria has always supported Union Station. She cannot remember a time that she was not involved with the agency. She attended All Saint’s Church as a child and has grown up alongside the organization. She and her husband Don included Union Station in their estate plan to model for their son the importance of building a legacy and giving back to help the less fortunate.

By making a planned gift you can continue to help Union Station Homeless Services rebuild lives for years to come. Whether they have passed on or are living, the members of our Legacy Society have made their mark.

Because of their love of life and concern for others, their memories will never be extinguished – and their gifts will remind us all that we, too, can make a difference in the lives that follow.

Just like Rob, Marylou, Gloria and their families, you can make a real impact for years to come.
